

Peering Policy

Cerberus Networks operates in the United Kingdom running on a dual IPv4/IPv6 stack.

Our Policy:

- All peering should be settlement free.
- We reserve the right to refuse peering with any party.
- Neither Party will establish a route of last resort directed towards the other Party's Network.
- Peers are expected to apply filtering best practices to announcements advertised to Cerberus Networks.
- Cerberus Networks reserves the right to temporarily suspend peering at any time during network abuse such as Denial of service attacks (DOS), unsolicited bulk email sources.
- Peers are expected to announce consistent routes at each exchange point.

Peering Contact Information:

Peering Email	peering@cerberusnetworks.co.uk
NOC Email	noc@cerberusnetworks.co.uk
NOC Phone	+44 (0)345 257 1335
BGP Looking Glass/Route Server	http://lg.cerberus.net.uk

Network Details:

ASN	51918
MACRO	AS-CERBERUSNETWORKS
MD5	Supported
Suggested Max Prefix	50
